Quick profile

Hey :) I'm Mario Callejas, a developer who cares as much about how something works under the hood as how it feels to use.

I run my own servers for fun, spend most of my day in the terminal, and can't leave a workflow alone until it's automated. Vim enthusiast, Zed for an IDE, and Pi for managing my AI agents.

Backend skills

Node.js/Bun/FastAPI
Typescript/JavaScript/Python/Dart/Go
MySQL/PostgreSQL/MongoDB/CosmosDB
Redis/Elasticsearch/Qdrant
Nginx/Caddy

Frontend skills

HTML/Pug/CSS/SASS
React/Ember/Angular

Other skills

Machine Learning	React Native/Flutter
• RAG	Testing (E2E/Unit)
• Fine-tuning	Security
• Prompt Eng.	DevOps
• MLOps	
• Agentic frameworks	

Education

A.S Computer Science - Valencia College

Employment

- | | |
|------|---|
| Now | HeyAudio: Co-founder |
| — | |
| 2023 | Trained custom wake-word and classification models for a real-time LiveKit/WebRTC voice assistant, backed by a Flutter app and a low-latency distributed Node.js/PostgreSQL backend. |
| 2023 | ArribaTec: Core Engineer |
| — | |
| 2022 | Owned Azure DevOps pipelines and cloud security, shipping full-stack features across React/React Native, Node.js, MongoDB, and Next.js. Improved frontend architecture, testing, and developer workflows, measurably increasing delivery speed across the team. |
| 2022 | PayCertify: Sr. Full-stack Dev. |
| — | |
| 2018 | Shipped full-stack features across a Node.js/PostgreSQL API and Ember.js frontend, applying security best practices and test-driven development throughout. |
| 2018 | TechData: Sr. Frontend Eng. |
| — | |
| 2014 | Led the company's design system while building and scaling high-traffic Angular/.NET e-commerce applications, with performance and reliability as core constraints. |
