Quick profile

Hey :) I'm Mario Callejas, a developer and computer enthusiast who enjoys building products and understanding how they work under the hood. I care about both the technical details and the user experience, balancing pragmatism with craftsmanship.

I also run my own servers for fun, spend plenty of time in the terminal, and enjoy optimizing my workflow through automation. I'm a Vim enthusiast, use Zed as my IDE, and Pi to manage my AI agents.

Backend skills

Node.js/Bun/FastAPI
Typescript/JavaScript/Python/Dart/Go
MySQL/PostgreSQL/MongoDB/CosmosDB
Redis/Elasticsearch/Qdrant
Nginx/Caddy

Frontend skills

HTML/Pug/CSS/SASS
React/Ember/Angular

Other skills

Machine Learning	React Native
Security (Defense)	Flutter
DevOps	Testing (TDD)

Education

A.S Computer Science - Valencia College

Employment

- | | |
|------|---|
| Now | HeyAudio: Co-founder |
| — | |
| 2023 | Developed cross-platform Flutter apps, low-latency FastAPI/WebRTC backends, and domain-specific AI voice assistants powered by fine-tuned LLMs and custom models. |
| 2023 | ArribaTec: Core Engineer |
| — | |
| 2022 | Owned Azure DevOps and cloud security while shipping reliable full-stack features across React/React Native, Node.js, MongoDB, and Next.js. Improved frontend architecture, testing, and developer workflows to boost maintainability, performance, and delivery speed. |
| 2022 | PayCertify: Senior Full-stack Dev. |
| — | |
| 2018 | Built scalable, secure REST APIs and real-time socket systems with Node.js and PostgreSQL, alongside performant frontend code in a test-driven development environment. |
| 2018 | TechData: Senior Frontend Eng. |
| — | |
| 2014 | Led the company's design system and landing page while building and scaling high-traffic e-commerce applications with Angular and .NET, focused on performance, reliability, and maintainability. |
